Residential Air Conditioning range

Single Medium Split wall mounted A++
AIR range

Cooling Capacity 2,5 – 6,2 kW

Single Premium Split wall mounted A++
AURA range

Cooling Capacity 2,7 – 7 kW

Multisplit 5x1 solutions
LIBERTY range

Cooling Capacity 4,1 – 12 kW

Portable R290
Basic & Premium range

Cooling Capacity 2 – 3,5 kW

Air Purifiers

Air flow up to 300 m3 / h

Dehumidifiers

Water reduction up to 20 liters / day

PRODUCT LINE

Heating range

Air to Water solutions (V3 & V4 heatpump)

Heating Capacity 4,2 – 16 kW

Air to Water solutions (all-in-one) URBAN range

Heating Capacity 4 – 9,5 kW

Air to Water solutions (Monoblock) SMART range

Heating Capacity 4 – 14 kW

Hybrid solutions (direct expansion Air to Air & Air to Water)

Heating Capacity 4,2– 31,5 kW

Domestic Hot Water solutions

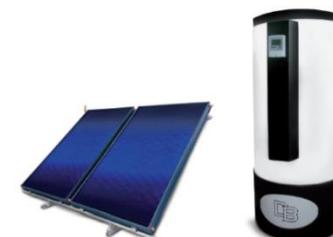

DHW up to 300 lit. capacity

Swimming Pool heatpump CORAL range

Pool Volume 18.000 – 170.000 lit

Solar thermal solutions

Natural or forced systems & drain Back

Maintenance & Commissioning tools

The image is a screenshot of a software interface for maintenance and commissioning. It displays a complex data table with multiple columns and rows. The table contains various numerical and text data, likely representing system parameters, test results, or commissioning logs. The interface includes a toolbar at the top and a sidebar on the left with navigation options.
